

Texas Herpetological Society Symposium
The University of Texas at Austin
Pickle Research Campus, The Commons Center
3 November 2007

“Texas Salamanders”

Registration Form

This year, we focus our fall conference on Texas Salamanders, which will be held on the UT Pickle Research Campus in NW Austin. Our confirmed list of speakers includes a wide variety of people from various facets of salamander biology in Texas. We enthusiastically invite you to attend and enjoy the company of fellow herpetologists from all walks of life.

Saturday, November 3 **9am – 5pm** **Presentations at The Commons Center, The University of Texas at Austin, Pickle Research Campus**
6 – 8pm **Barbecue at Walnut Creek Metropolitan Park**

Pre-registration is strongly urged due to the meeting site logistics; deadline for mail-in registration is: 15 October 2007 (registrations will be accepted at the conference). If you plan to attend the BBQ, you will need to pre-register as well. If you have questions, please contact Travis LaDuc: travieso “at” mail.utexas.edu

Please mail this form and payment to:

Travis LaDuc

Saturday Barbecue: _____ \$10.00 each
Total amount enclosed: \$ _____

(Registration fees include Saturday morning and afternoon coffee breaks, meeting program and support activities. Children need not register but each must purchase a Sat. BBQ ticket.)

Texas Herpetological Society Symposium
The University of Texas at Austin
Pickle Research Campus, The Commons Center
3 November 2007

“Texas Salamanders”

List of presenters, in alphabetical order of first author

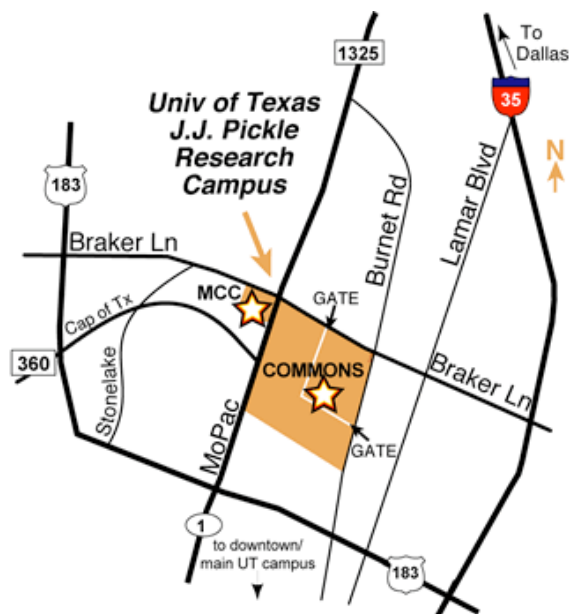

- Dee Ann Chamberlain**, City of Austin: “Captive population management of *Eurycea sosorum* (Barton Springs Salamander).”
- Jessie Crowley**, Dallas Zoo: “Zoological contributions to the conservation of central Texas salamanders (*Eurycea* spp.)”
- Laurie A. Dries**, City of Austin: “Science and endangered species management: the Barton Springs salamander, *Eurycea sosorum*.”
- Kristen Epp and Caitlin Gabor**, Texas State University: “Experience effects the avoidance of native and non-native predators by the San Marcos salamander, *Eurycea nana*.”
- Joe Furman**, Houston: The Edwards Aquifer, Ezell’s Cave, and the search for the Blind Monster.”
- Andrew G. Gluesenkamp, Jean K. Krejca, and Lisa O’Donnell**, Texas Natural Science Center, Zara Environmental LLC, and Austin Water Utility, Balcones Canyonlands Preserve: “Studies on central Texas *Eurycea* populations using VIE mark-recapture methods.”
- Troy Hibbitts, Terry Hibbitts, and Toby Hibbitts**, Texas Herpetological Society and Texas Cooperative Wildlife Collection: “An overview of salamander diversity in Texas.”
- Lisa O’Donnell, Mark Sanders, and Laura Zebchazy**, Austin Water Utility, Balcones Canyonlands Preserve and Travis County Department of Transportation and Natural Resources: “Jollyville Plateau Salamander (*Eurycea tonkawae*): central Texas’s proverbial canary in a coalmine.”
- Benjamin A. Pierce, and James L. Christiansen**, Southwestern University, Texas Natural Science Center: “Distribution and ecology of the Georgetown salamander, *Eurycea naufragia*.”
- Mary F. Poteet, and H. Arthur Woods**, The University of Texas at Austin and University of Montana: “Survivorship and physiological response of *Eurycea sosorum* and *Eurycea nana* to altered levels of dissolved oxygen and conductivity in the Edwards Aquifer.”
- Mike Quinn, Jean K. Krejca, James Reddell, and Duane A. Schlitter**, Texas Parks and Wildlife Department, Zara Environmental LLC, and Texas Natural Science Center: “An overview of the Balcones Karst invertebrate fauna.”
- Corey E. Roelke, Nathan F. Bendik, Andrew G. Gluesenkamp, and Paul. T. Chippindale**, The University of Texas at Arlington and The University of Texas at Austin: “Morphological analysis of southeastern clade central Texas *Eurycea*.”
- Steven J. Taylor, Christopher A. Phillips, Jean K. Krejca, and Michael J. Dreslik**, Illinois Natural History Survey and Zara Environmental LLC: “Population estimates and age class structure of the salamander *Plethodon albagula* (Plethodontidae) at Fort Hood, Texas.”
- Haley Gillespie Weatherby**, The University of Texas at Austin: “Assessing temporal diet variation in the Barton Springs Salamander (*Eurycea sosorum*) using stable isotope techniques.”

Texas Herpetological Society Symposium
The University of Texas at Austin
Pickle Research Campus, The Commons Center
3 November 2007

“Texas Salamanders”

The Fall 2007 THS symposium will be held at The Commons Center, on The University of Texas at Austin’s Pickle Research Campus, located in NW Austin, near US Hwy 183 and MoPac. For detailed maps and instructions to the symposium as well as local hotels see:

<http://www.utexas.edu/commons/attendees.html>

The evening BBQ will be catered by Rudy’s BBQ and will be held a short 4 miles away at Walnut Creek Metropolitan Park (12138 N. Lamar Blvd).
